Switch to Save
fast facts...

- It takes less energy to power 7 LEDs as it
does to light 1 standard halogen downlight.

- A halogen globe lasts around 2000 hours
while an LED will last up to 50,000 hours and
generates 65% less heat than a halogen.

- For every 1000 households we will save 17,000
tonnes of carbon going into the atmosphere. That’s
equivalent to 3,580 cars off the road for one year.

Offer provided as a part of the Victorian Government’s VEET (Victorian Energy
Efficiency Targets). Available to Victorian residents with homes that have existing
MR16 halogen downlights. Comparison based on 50w halogen vs 7w LED @25c
per kWh for 5 hours per day for a house with 20 downlights. LED downlights are
not dimmable. Homes or businesses replacing less than eight halogen down
lights may be charged a fee of $29.95. Bendigo and Adelaide Bank Limited,
ABN 11 068 049 178 AFSL/Australian Credit Licence 237879,(552238) (05/15)

Bendigo Bank
Bigger than a bank.
Free LED down lights. No cost. No effort.

Switch to Save

Replace your old, energy-thirsty halogen down lights with energy-efficient LED down lights, installed in your home or business for FREE!

It’s called Switch to Save, and it can save you more than $500 a year on your power bill.

We’ll even donate $1 for every down light replaced in your community to a local school’s sustainable project.

How does Switch to Save work?

1. Anyone can get involved, whether you bank with Bendigo Bank or not.
2. Register your participation with a branch staff member. It only takes a minute.
3. Our trusted partner, Energy Makeovers, will arrange for a local, qualified electrician to visit your home or business at a suitable time to replace your old halogen down lights with your FREE LED down lights.
4. $1 for every down light replaced funds a local school’s sustainable project.

How do I register?

Please complete the details below and return to your local Bendigo Bank branch or your participating school.
